

PROJECT REVIEW SHEET - EZ1

HISTORIC & CULTURAL RESOURCES REVIEW

Property / Client Name:	Pend Oreille Barrier Assessment & Prioritization, 11-1514
Worksite Name/Number:	Colville National Forest in WRIA 62 (Worksite 1 of 1)
Funding Agency:	Rec. and Conserv. Office

Project Applicant	Dept of Fish & Wildlife
Contact Person	Sandy Dotts
Address	PO Box 350
City, State, Zip	Colville, WA 99114-0350
Phone	(509) 684-2362 Ext 10
E-Mail	dottssrd@dfw.wa.gov

Funding Agency:

Organization	Rec. and Conserv. Office
Address	PO Box 40917
City, State, Zip	Olympia, WA 98504-0917
Phone	360-902-3000
Contact	David Caudill, Email: Dave.Caudill@rco.wa.gov

PLEASE DESCRIBE THE TYPE OF WORK TO BE COMPLETED

(Be as detailed as possible to avoid having to provide additional information)

Provide a detailed description of the proposed project:

Several inventories have been conducted over the last decade to identify and assess stream crossing structures and fish passage barriers in WRIA 62. However, WDFW found that despite these efforts, large data gaps in the fish passage data for WRIA 62 still exist. For example, none of the previous assessments were conducted on the Colville National Forest. Within WRIA 62, the Colville National Forest comprises approximately 49% of the total land base. The Forest conducted an inventory of fish bearing streams in 1999-2000. Unfortunately, some fish bearing streams were missed and much of the data that was collected has been determined to be inaccurate. WDFW found that 90% of stream crossing structures on the Idaho Panhandle National Forest within WRIA 62 were barriers to fish passage. It is likely that this is the case for stream crossings location on the Colville National Forest as well.

This project will inventory, assess, and prioritize for removal/replacement all human-made fish passage barriers in WRIA 62 and use this information to update the Pend Oreille lead entity strategy. This will include addressing the following recommendations made in the WDFW (2010) barrier report for WRIA 62:

- * Conduct a fish passage barrier inventory for those portions of WRIA 62 located on the Colville National Forest
 - * Conduct Level B analysis on 17 culvers that were identified as "unknown" barriers during previous inventories
 - * Complete surface water diversion inventory along the mainstem of the Pend Oreille R.
-

Describe existing project site conditions.

Current land use is National Forest System, which comprises about 49% of the land base in WRIA 62 and provides all habitat components necessary for native salmonid populations.

PROJECT REVIEW SHEET - EZ1

HISTORIC & CULTURAL RESOURCES REVIEW

Describe any proposed ground disturbing activities. That is, will a tool(s) be used to move earth (soil, rock, gra

Will buildings be altered or demolished? If so please complete a DAHP Determination of Eligibility EZ2 form for each building affected by the proposed project and attach the form to your project in PRISM. <http://www.dahp.wa.gov/pages/Documents/Sites.htm>
